REASONS FOR ALLOWANCE

1. Claims 2, 4 and 11-20 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to infrared optics and methods of manufacture. Regarding claim 2 the prior art fails to disclose that the electrodes are arranged in the form of cross bar array for applying electric field to selected areas of the nonvolatile solid state electro-optic medium. Regarding claim 4, the prior art fails to disclose a plurality of polarizer layers sandwiching the nonvolatile solid state electro-optic medium. Regarding claim 11, the prior art fails to disclose a plurality of optical waveguides supported in the electro-optic medium. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
